Polymer Aluminum Electrolytic Capacitor ECAS Series Product Change Notification

Dear Valued Customer,

Thank you very much for your patronage and support to our capacitor products.
We would like to inform you that we propose smaller case size, and ask you to accept this change.
Please kindly review below for the details of this approval request.

1. Applicable Products

Polymer aluminum electrolytic capacitor

Murata P/N:

- ① ECASD91A107M010K00 (7.3x4.3x4.2mm, 10V, 100uF, 10mohm)

2. Changing point

Customer P/N	Current Murata P/N	Proposed Murata P/N	Changing Point
ECASD91A107M010K00	ECASD91A107M010K00 7.3x4.3x4.2mm 100uF 10V 10mohm	ECASD41A107M040KA0 7.3x4.3x1.9mm 100uF 10V 40mohm	Component height: 4.2 to 1.9mm ESR 10m to 40m ohm

3. Background

In order to maintain current good delivery of this product, we need to standardize the case size. Murata propose downsizing especially component height 4.2mm(D9) to 1.9mm(D4) as our standard case size. 4.2mm(D9) are not recommended for new design and planned to be discontinued in the future.

4. Quality

The quality are the same between current and new models.

5. Schedule

Proposed Murata P/N is already in mass production. As soon as our proposal is accepted, we are able to ship this product immediately.

6. Request

We appreciate if you review above and return this letter with your acceptance signature to us by the end of Feb 2020. If you have any special inquiry and/or questions, please feel free to contact us.

We would appreciate your understanding and cooperation in this matter and look forward to serving you in the future.

Sincerely Yours,

(General Manager) Atsushi Kawashima
