PRODUCT CHANGE NOTIFICATION

GP2D series of product

GP2D005A120A	GP2D010A120U	GP2D030A120U	GP2D060A120B
GP2D005A120C	GP2D010A120C	GP2D030A120B	GP2D060A120U
GP2D010A120A	GP2D020A120U	GP2D040A120U	
GP2D010A120B	GP2D020A120B	GP2D050A120B	

Becomes GP3D series

GP3D005A120A	GP3D010A120U	GP3D030A120U	GP3D060A120B
GP3D005A120C	GP3D010A120C	GP3D030A120B	GP3D060A120U
GP3D010A120A	GP3D020A120U	GP3D040A120U	
GP3D010A120B	GP3D020A120B	GP3D050A120B	

Dear Valued Customer:

To support our customers’ growing demand for silicon carbide products, Global Power Technologies Group is transferring many product families from the current 100 mm wafer fabrication line to a 150 mm line at a new supplier. Since new mask sets have to be generated, GPTG is taking this opportunity to incorporate minor design improvements at the same time. These revised products will be designated GP3D, which will be a drop-in replacement, with enhanced specifications.

GPTG will introduce the GP3D-1200 Volt Series in Q3 2019, with full production support in Q4, 2019.

Please contact GPTG Sales with any questions regarding this matter. Samples of the GP3D Product series can be requested from the Support link on our website at [www.gptechgroup.com](http://www.gptechgroup.com)

Best Regards,  
John R. Silk, Director, Quality and Reliability
