PIR Sensor partial withdrawal(Japan produced item)

Product Type: IRA-E Series, IRS-B Series and Frenel lens for these series

Dear. Valued Custome

Thank you very much for your great and continued support for business with Mura
 We would like to announce on the withdrawal of PIR sensor IRA-E series, IRS-B (SMD) series
 and Frenel Lens for these 2 series, by the schedule indicated below.
 Please read through this notice and return your written feedback by the due date.
 Also, we request you to place the last time order by the Last time orde
 Your understanding and support are highly appreciated.

1. Product Type, Customer/Murata/Alternative Part Nui

Product Type: IRA-E Series, IRS-B Series and Frenel lens for these ser
 Please refer to the attached documents for detailed Part Numbers' information.

2. Reasons/Backgrou

To concentrate on promoting IRA-S series such as RFI improved high performance type, we
 decided to withdraw IRA-E Series, IRS-B(2nd SMD) series and Fresnel lens for these series.

- 1. **IRA-E series** has not been promoted for the past few years since we have new higher
 performance PIR sensor IRA-S series.
- 2. **IRS-B (2nd SMD) series** also has not been recommended due to disadvantage of noise
 against lead type for the past few years. Customer who requires small size sensor and who
 understands the noise demerit has adopted 2nd SMD series, however, the business volume
 of those customers were not large.

- Classification I Discontinued (with alternative equivalents): IRA-E series and Fresnel Lens for IRA
- Classification II Discontinued (no replacements): IRS-B series and Fresnel Lens for SI
- Classification III Factory change (Japan to Thailand): Other Fresnel lens

3. Product Withdrawal Schedule:

Last time order*: #####
 Production stop: #####

Last shipment: #####

*: Last time buy needs to follow the standard package quantity and minimum order quantity.

No return and No cancel can be accepted except for Murata responsible
