To meet the requirements of more and more terminal systems for power supplies to comply with household appliances regulations, MEAN WELL applies CB/ DEKRA IEC/EN60335-1, Household, similar electrical appliances safety certification, to popular onboard type power supply, MPM/MFM-15/20 series. By selecting the above-mentioned power supply series, terminal system integrators can save huge safety regulation fees and eliminate cumbersome certification procedures, accelerating new product launch process.

The following standard product series are upgraded to the new version after the production date. MEAN WELL will fully absorb the costs incurred from this upgrade and will not increase the product price. If you have any questions, please check the updated product datasheet on the MEAN WELL website or contact your MEAN WELL sales representative.
